A NEXT LEVEL DOWNLIGHT INNOVATION COMBINING PREMIUM FEATURES AND AN INDUSTRY-LEADING PERFORMANCE

Groundbreaking in performance, reliability and application possibilities. Pro-Fusion is an innovative solid state lighting solution designed to deliver illumination performance, unequalled in the market. Whether it concerns general lighting for a new construction project or the replacement of compact fluorescent downlights in existing buildings, the Pro-Fusion realizes lighting that is considerably more comfortable while substantially minimizing energy costs.

PRODUCT FEATURES

Lamp type	LED	Power	4 Watt
Monitoring equipment	Automatic self test	Nominal voltage	6.4 6.4 Volt
Wiring system	Continuous circuit/emergency circuit	Nominal operation time	3 3 Hour
With remote switch connection	✗		
Protection class according to IEC 61140	II
