ROBUST AND STYLISHLY DESIGNED CEILING AND WALL FIXTURES WITH ENERGY SAVING OPTIONS

The Pro-Fit series includes two robust and sleekly designed ceiling and wall fixtures. The Pro-Fit is extremely suitable for housing construction, for use in portals, corridors, galleries and storerooms and on the outside of buildings to illuminate the front and back doors. It is also a perfect one-to-one replacement for the most commonly used conventional variants, where the dimensions make painting unnecessary in many cases.
