### NEXT LEVEL Highbay Luminaire that excels in price, performance and usability

The Pro-Bay Multi is an outlier in many respects. Its exceptionally high luminous efficacy of up to 195 lm/W results in significant energy savings. In addition, 3 adjustable levels of brightness and a color temperature that can be set to 3000, 4000 or 5000 K maximize its usability. Finally, Pro-Bay Multi accessories, such as PIR or radar-controlled motion detectors, a twilight switch or Casambi module offer the benefits and comfort of an intelligent lighting solution literally in an instant.
